FORT PIERCE SCHOOL NOTES

Motto: "Not for School, but for Life We Learn." Colors, green and white.

The Seniors have completed their review in United States history and will now take a course in civics.

The botany students of the high school are doing some very interesting work in the laboratory. This week they began to make their herbariums, which will afford them much pleasure.

Anyone passing by the school house on Friday evenings hears Aeolian strains wafted through the balmy outer darkness from our orchestra within. By the way, we want that piano soon. (Kartago delenda est.)

The tenth grade English class had a very interesting debate this week on that much talked about subject, "Should Women Vote." Both sides were good and many points were brought out by each one. The decision was made in favor of the affirmatives by the Seniors, who acted as judges.

While looking for something for a write-up, we watched with anxiety and interest a nice, long string of boys "popping the whip." One little fellow, who composed part of the snapper, did roll over many times; but upon our interviewing him, although he handled himself doubtfully, said nothing was broken, so we passed on.

When children cough a good deal it is time to take notice or something serious will develop. A few doses of BALLARD'S HOREHOUND SYRUP may ward off a spell of sickness. Price 25c 50c and \$1.00 per bottle. Sold by all druggists.
